

Dip Tube (QC- Container closure)

U.S. Patents 6,357,494; 9,580,197

Avoid contamination by external environmental influences and ensure the high purity of liquid chemical products.

- Suitable with every container
- Eligible for one-way or multi-cycle use
- Particularly suitable for chemicals and flammable liquids
- Built-in key-code-system prevents mix-ups and confusion
- High- purity PE/PP and PE conductive
- Ultrasonic welded
- Top-safety due to types of dip tube security systems
- Patented key-code-system
- Individual color codes
- Traceability by continuous serial number

Technical Specifications:

Description	DT, DT3, GT2
Connection thread in the container:	56PP, 70PP, 70x5PE 62PE, S64 (2" Buttress) G2", KS60PE, FL150 (other specifications on request!)
Material riser tube:	PE, PP, CDP-conductive, PVDF, PFA
seal:	<ul style="list-style-type: none"> • Standard PE-LD • FPM, POE
Depth of immersion:	Millimetre of any desired length Container specific by a list of examples
Traceability:	Engraving serial number on top of the stopper, for example: 1202A157
Coding:	Dispense head: black Filling head: red Individual color codes: grey, blue, green, pink, yellow
Tamper Proof Seals	Screw plug: closed: S = 3/4", T = 42 x 2 ventilated: V = 3/4", W = 42 x 2
Option:	<ul style="list-style-type: none"> • Bellow for residual discharge Type F = bottom, Type B = on top • Contact ring for Rikutec IBC • Originality safety system O-S-S • Grounding cable
accessories:	<ul style="list-style-type: none"> • Universal wrench PE / PVDF • Docking station
Ordering ex.:	DT-56CDP-012-1030-TF

Optional Equipment:

Docking Station

Docking Station for two connectors

Universal wrench

QC-System Dispense or Filling Head

O-S-S round trip transport

O-S-S one-way for S62x5

Bellow type "B"

Bellow type "F"

Code disk
